Operational Efficiency

What makes us the preferred choice for your logistics requirements

Freezone Bonded Warehousing

Ensuring faster turnaround without the need for customs involvement in bonded warehouse operations

24/7 Operational Capability

Unlike competitors, we deliver on weekends, ensuring faster turnaround.

36-Hour Clearance & Delivery

Ensure shipment clearance within 36 hours of vessel arrival for swift and efficient operations.

Weekend Deliveries

Keeps supply chains running smoothly, even during holidays.

Visibility & Alerts

Fully automated portal for shipment planning and tracking.

Experience 24/7/365 Bond operations with 14 DAYS FREE STORAGE

ENHANCED CARGO SAFETY

Safety is a top priority in our bond operations. Our facilities are equipped with state-of-the-art security systems and are monitored around the clock to protect your valuable cargo. This includes secure handling during loading and unloading, reducing the risk of damage or loss.

ROUND-THE-CLOCK CLEARANCE & DELIVERY:

Our bond facilities operate 24x7x365. This continuous service ensures that your cargo is cleared and delivered without delay, no matter the time or day. Whether it's a late-night arrival or a holiday shipment, we're always ready to expedite the process.

PRIORITY HANDLING

Our 24x7x365 service ensures that your bonded cargo receives priority handling, reducing delays and accelerating the movement of goods through customs and into the supply chain.

FLEXIBLE STORAGE SOLUTIONS

Our bonded warehouses provide secure and flexible storage options tailored to your needs. Whether you require short-term or long-term storage, we offer value-added services such as palletizing, labeling, and repacking to meet specific logistical requirements.

IMMEDIATE DE-STUFFING

With full control over containers at our bonded facilities, we offer immediate de-stuffing services. This minimizes idle time and ensures that your goods are swiftly moved to secure storage or delivered as needed, enhancing overall operational efficiency.

ENHANCING WAREHOUSE EFFICIENCY WITH DEDICATED SPACE AND GLOBACTIV NESTAINERS AT CFS-I FOR GENERAL CARGO

Streamlined Space Management

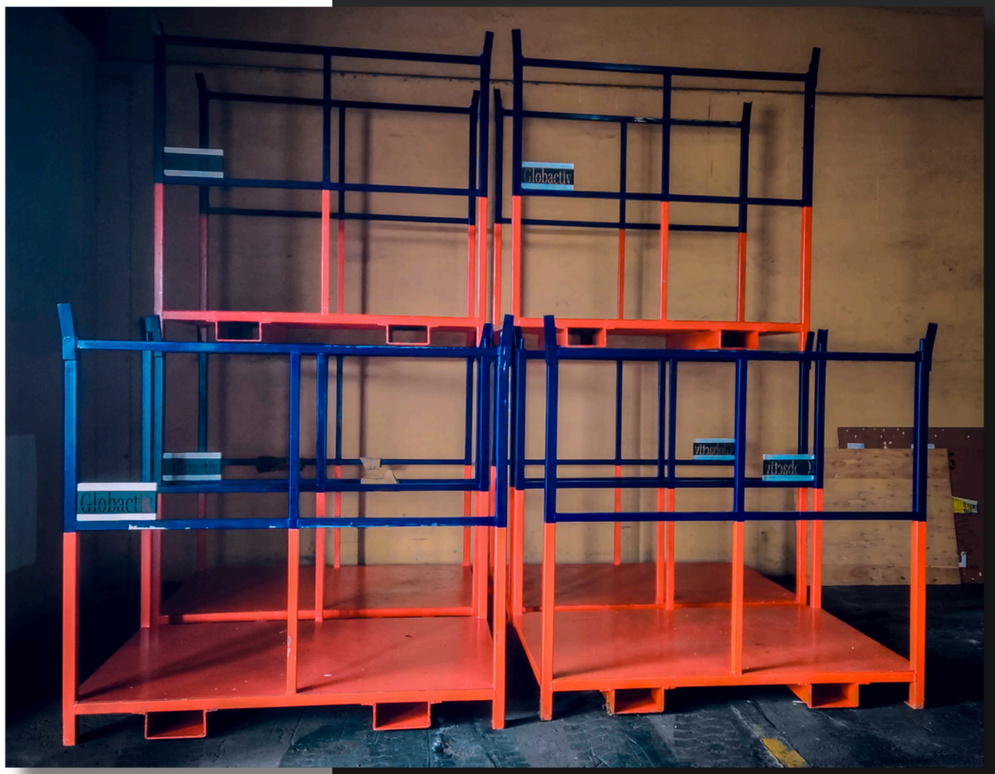

Nestainers enable vertical stacking, transforming three-dimensional space into a strategic asset. By stacking upwards, floor space is maximized, allowing for increased storage capacity without the need for expansion.

Enhanced Safety and Product Protection

Constructed from robust materials, nestainers offer a secure way to store goods, reducing the risk of damage from external pressures. Their stability and strength ensure the protection of stored items and enhance safety for warehouse personnel.

Port-Specific Benefits

- **Rapid Adaptability:** Ports are dynamic environments where cargo types and volumes can change quickly. Nestainers provide the agility to reconfigure storage spaces on demand.
- **Ease of Transport**: Nestainers can be easily moved around the port using standard forklifts, aiding in the swift repositioning of goods from storage areas to transport vehicles or cargo ships.
- **Durability in Harsh Conditions**: The strong construction of nestainers ensures they withstand the often harsh conditions found in port environments.

Air Freight

PRE-ARRIVAL COMPLIANCE

We pre-process all documentation in advance, ensuring swift and compliant clearance within our 12-hour turnaround time.

RISK MITIGATION & ACCURACY

Through rigorous audits and checks, we ensure full regulatory compliance, minimizing delays, penalties, and disruptions.

EXPERT CUSTOMS TEAM

Our in-house customs specialists stay updated on evolving regulations. They manage paperwork, align with compliance standards, and handle any complexities quickly and efficiently.

24/7/365 OPERATIONS

Timing is critical, our CHB team operates 24/7, ensuring immediate clearance—even at off-peak hours.

OWN TRANSPORT FLEET

Our dedicated fleet ensures immediate availability, efficient dispatch, and reliable last-mile delivery for all your cargo needs.

- Escalation protocols for urgent shipments
- Regular performance reviews to drive improvement

Warehousing excellence

- 30,000 sqft warehouse certified with ISO 9001:2015, ISO 45001:2018, ISO 22000:2018, and ISO 14001:2015
- Dedicated zones with specialized racking systems designed for apparel logistics
- Skilled staff to ensure accuracy, compliance, and efficient operations.
- Regular performance reviews to drive improvement

Fleet optimization

- GPS-enabled transport vehicles for enhanced tracking and security
- 7.5ft trucks to 40ft prime movers, ensuring flexibility for different cargo volumes
- Dedicated drivers & logistics personnel to maintain operational efficiency
- Regular fleet maintenance & safety compliance to ensure reliability

Risk management & contingency planning

At Globactiv, we don’t just plan shipments—we plan ahead to avoid disruptions.

- **Proactive Carrier Selection**

  We avoid carriers with announced blank sailings to reduce the risk of cargo being rolled over and delayed.

  > *Why? Because one delay can mean weeks of waiting for the next available sailing — and that’s a risk we won’t take for your cargo.*

- **Avoid Transshipment Routes with High Congestion Risk**
- **Always Keep a Backup Carrier Ready**

  We maintain relationships with multiple shipping lines and airlines, so if one carrier faces an issue (delay, strike, or blank sailing), we can switch quickly without disruption.

- **24/7 Container Tracking and Exception Alerts**
